

### **Position**

Chief of Quality Assurance and Innovations.

### **Description**

Cervecería Austral is looking for a Brewmaster to be responsible for quality assurance and developing new products.

Cervecería Austral is the southernmost brewery of Chile focused on the craft premium market and located in the heart of Chilean Patagonia; Punta Arenas. Our workforce consists of 100 workers and we project a new plant will support our continuous grow. Our beers are sold all along our 4000 km-country.

Half of Austral belongs to CCU and one third of CCU belong to Heineken so we have a close relationship with Heineken procedures.

The hired person will report to the plant manager and his or her objective will be to assure maximum quality in every single process through the development of Quality Pilar in the frame of TPM. The hired person will also be responsible for continuously developing new products while paying attention to raw materials and processes.

We are looking for someone motivated about brewing and interested in being part of a great team at Patagonia. Also has to have experience in the brewing industry and be able to learn Spanish.
